

CFO Task Force

The ERT CFO Task Force seeks to address matters specifically in the development of financial market regulations, as well as regulatory reporting and taxation issues. They engage with the European international institutions and governments to address key concerns and to make recommendations reflecting common views across the industry.

Statement on the Commission's Strategy for Company Taxation in the EU

Press Release

ERT agrees with the Commission's analysis of the most pressing problems in

this area: the complex and cumbersome requirements regarding transfer pricing, the lack of cross-border loss relief, the tax cost of cross-border business integration and the need to deal with 15 different tax systems and... [> read more](#)
