Governing Board

The Governing Board is chaired by the President, with an elected Board composed of representatives of its member companies and federations. The Governing Board, including the executive committee, meets at least four times a year. The executive committee is composed of one President, and three Vice-Presidents.

Our President is elected by the Board elected every two years.

The Governing Board defines the policies and strategies of Eurogas and determines the budget and financing, which is then submitted to the General Assembly for approval.

The General Assembly convenes twice a year to approve the annual budget, sets out the association's objectives, elects the executive committee and board members.
