

Subsea Committee

The Subsea Committee provides Member Companies with a forum for open and constructive dialogue on the diverse challenges, issues and opportunities associated with the Committee's objectives.

The Subsea Committee includes SURF (subsea facilities from tubing hanger to boarding valve, umbilicals, risers, and flowlines) and underwater portion of export systems (pipelines, risers, insulation valves, etc.). The scope of work encompasses design, manufacture, installation, operation and decommissioning – including integrity, reliability, production efficiency and obsolescence of the facilities over their entire lifecycle.

Objectives

☐ Contacts

Chair of the Security Committee is Roald Sirevaag, Equinor

Management Committee sponsor is Morten Loktu, Equinor

Work stream contacts:

- HSE: Michael Starkey, ExxonMobil
- Standardization: Per-Arne Nilsen, Total

About IOGP

The International Association of Oil & Gas Producers (IOGP) is the voice of the global upstream oil and gas industry.

Our Members operate around the globe, producing 40% of the world's oil and gas.

Together, we identify and share knowledge and good practices to improve the industry in areas such as health, safety, the environment and efficiency.
