Headquartered in Franklin, Tennessee, Nissan's North American operations include automotive styling, engineering, consumer and corporate financing, sales and marketing, distribution and manufacturing for the U.S., Canada, and Mexico.

The company sold its first automobile in the U.S. in 1958, with U.S. manufacturing beginning in June of 1983 as a white Nissan pickup truck rolled off the assembly line. More than 34 years later, Nissan has four U.S. manufacturing facilities capable of producing 1 million vehicles, 1.4 million engines, 1.4 million forgings and 456,000 castings annually.
